Be it enacted by the Senate and House of Representatives of the Philippines in Congress assembled:

SECTION 1. *Nature and Scope of Franchise.* - Subject to the provisions of the Constitution and applicable laws, rules and regulations, the franchise granted to Mindanao Islamic Telephone Company, Inc., now known as Dito Telecommunity Corporation, granted under Republic Act No. 8627 and hereunder

In this Act, the term "telecommunications" shall include electronic telecommunications. In addition, the following terms shall have the meanings set forth herein:

"Electronic communications network" shall mean (a) a transmission system for conveyance by means of electrical, magnetic, or electromagnetic energy, of signals of any description; and (b) any of the following as are used by the persons providing the system and in association with it, for conveyance of the signals: (i) apparatus comprised in the system; (ii) apparatus used for the switching and routing of the systems; and (iii) software and stored data.

It includes wired, wireless, fixed, cellular, and/or mobile, or integrated telecommunications/computer/electronic services, including value-added services, or technologies related to such service, which are present available or made available through technological advances or innovations in the future, and fixed and mobile stations.

SEC. 2. Manner of Operation of Stations or Facilities. – The stations or facilities of the grantee shall be constructed and operated in a manner as will, at most, result only in the minimum interference on the wavelengths or frequencies of existing stations or other stations which may be established by law, without in any way diminishing its own right to use its assigned wavelengths or frequencies and the quality of transmission or reception thereon as should maximize rendition of the grantee's services or the availability thereof.

SEC. 3. Authority of the National Telecommunications Commission. – The grantee shall secure from the National Telecommunications Commission (NTC) a Certificate of Public Convenience and Necessity or the appropriate permits and licenses for the construction, installation and operation of its telecommunications systems or facilities. In issuing the certificate, the NTC shall have the power to regulate and impose such conditions relative to the construction, operation, maintenance, or service level of the telecommunications systems or facilities. Such certificate shall state the areas covered and the date the grantee shall commence the service. The grantee shall not use any frequency in the radio spectrum without authorization from the NTC. The NTC, however, shall not unreasonably withhold or delay the grant of such authority, permit or license.

In case of any violation of the provisions of this franchise, the NTC shall have the authority to revoke or suspend, after due process, the permits or licenses it issued pursuant to the franchise. The assignment of frequencies to the franchisee shall be subject to review at regular intervals. The NTC shall have the authority to reallocate redundant frequencies held by the franchisee. The NTC may recommend to Congress the revocation of the franchise for any violation of the provisions of this franchise.

SEC. 4. Excavation and Restoration Works. – For the purpose of erecting and maintaining poles or other supports for said wires or other conductors for the purpose of laying and maintaining underground wires, cables, or other conductors, it shall be lawful for the grantee, its successors or assignees, with the prior approval of the Department of Public Works and Highways (DPWH) or the local government unit (LGU) concerned, as may be appropriate, to make excavations or lay conduits in

any of the public places, roads, highways, streets, lanes, alleys, avenues, sidewalks, or bridges of the province, cities, or municipalities: *Provided, however,* That a public place, road, highway, street, lane, alley, avenue, sidewalk, or bridge disturbed, altered or changed by reason of erection of poles or other supports or the underground laying of wires, other conductors or conduits, shall be repaired and replaced in workmanlike manner by said grantee, its successors or assignees, in accordance with the standards set by the DPWH or the LGU concerned. Should the grantee, its successors or assignees, after the ten (10)-day notice from the said authority, fail, refuse, or neglect to repair or replace any part of public place, road, highway, street, lane, alley, avenue, sidewalk, or bridge altered, changed or disturbed by the said grantee, its successors or assignees, then the DPWH or the LGU concerned shall have the right to have the same repaired and placed in good order and condition, and charge the grantee, its successors or assignees at double the amount of the costs and expenses for such repair or replacement.

SEC. 5. *Responsibility to the Public.* – The grantee shall conform to the ethics of honest enterprise and not use its stations or facilities for obscene or indecent transmission, or for dissemination of deliberately false information, or willful misrepresentation, or assist in subversive or treasonable acts.

The grantee shall operate and maintain all its stations, lines, cables, systems, and equipment for the transmission and reception of messages, signals, and pulses in a satisfactory manner at all times, and as far as economical and practicable, modify, improve, or change such stations, lines, cables, systems, and equipment to keep abreast with the advances in science and technology.

The grantee shall improve and extend its services in areas not yet served, and in hazard- and typhoon-prone areas that shall be determined by the National Disaster Risk Reduction and Management Council, or its legal successor, in coordination with the NTC.

The grantee shall also improve and upgrade its equipment, facilities and services, in order to ensure effective compliance with

the objectives of Republic Act No. 10639 or “The Free Mobile Disaster Alerts Act”.

SEC. 6. *Rates for Services.* – The charges and rates for telecommunications services of the grantee, except the rates and charges on those that may hereafter be declared or considered as nonregulated services, whether flat rates or measured rates or variation thereof, shall be subject to the approval of the NTC or its legal successor.

SEC. 7. *Right of the Government.* – The radio spectrum is a finite resource that is part of the national patrimony and the use thereof is a privilege conferred upon the grantee by the State and may be withdrawn any time after due process.

A special right is hereby reserved to the President of the Philippines, in times of war, rebellion, public peril, calamity, emergency, disaster or disturbance of peace and order: to temporarily take over and operate the stations, transmitters, facilities, or equipment of the grantee; to temporarily suspend the operation of any station, transmitter, facility, or equipment in the interest of public safety, security, and public welfare; or to authorize the temporary use and operation thereof by any agency of the government, upon due compensation to the grantee for the use of said stations, transmitters, facilities, or equipment during the period when these shall be so operated.
